EcoSys announces partnering agreements with five new Authorized Partners.

RYE BROOK, NY (December 22, 2009)

EcoSys ends 2009 on a positive note, announcing partnering agreements with five new Authorized Partners in the final quarter of the year.

"These firms bring to the table deep industry subject matter expertise, and have been assisting their customers for decades in developing best practices for project controls, capital planning, and Earned Value Management," stated Christen Bergerud, EcoSys Co-Founder and Executive VP. "We are pleased that they have selected EcoSys as their recommended software solution."

Members of the EcoSys Authorized Partner program are resellers of EcoSys software, and they are authorized by EcoSys to provide application implementation consulting, EcoSys software training, and system integrations.

US Partners:

748 Inc., Tampa, FL

DRMcNatty, Mission Viejo, CA

Innovative Management Solutions (IMS), Plano, TX

Mid-State Solutions, Inc. (MSS Inc.), Celebration, FL

Europe-wide Partner:

Locher & Partner Informatik and Projektmanagement AG, Switzerland.

The EcoSys web-based enterprise project financial management suite provides customers with next generation technology.

EcoSys (www.ecosys.net), founded in 2000 by the original designers and developers of the Primavera Enterprise Project Management suite, provides project financial management technology and consulting to over 200 customers worldwide in industries including federal, state and local government, oil & gas, utilities, construction, and IT.
